

Cell Notes and Questions. For 24/2/2013

We began by looking at the structure of Cells and the five values we hold

1. ABCDE – can you remember what they were?

In the Word we looked at the Seven Motivational Gifts from Romans 12. 1-8.

[If you have not come across this before or forgotten what they were the attached Chart from "*Equipped to Lead a Cell Community*" West & Withers Cell UK ISBN 978-1-9021144-1-3. Will help you review this part of the sermon.]

David Watson once said that "the answer to miss-use of gifts is no disuse, but right use"

2. Can you identify what the dangers are of miss-using these gifts?
3. What one thing have you done in the last month which has encouraged somebody else?
4. What are the practical implication of this for your Cell and the gifts you should be developing a using?
